

Customer Participation Agreement

This Agreement is made between Ball & Doggett Pty Ltd ("Provider") and the undersigned customer ("Customer") for participation in the ecocycle Recycling Program, a closed-loop initiative for the sustainable recycling of approved Ball & Doggett-supplied products.

1. PROGRAM OVERVIEW

ecocycle enables the recycling of signage and print media supplied by Ball & Doggett, made from approved polypropylene (PP) materials. The program provides collection bins for customers to return eligible waste, which is then processed into new material via our recycling partner.

2. CUSTOMER ONBOARDING & PARTICIPATION PROCESS

The Customer agrees to the following process, as outlined in the ecocycle operational workflow:

2.1 Registration

The Customer registers interest via the ecocycle online form.
The ecocycle Admin Team reviews Customer eligibility.

2.2 Eligibility Confirmation

If eligible, bins are delivered via Internal Transfer Ticket (ITT) to the agreed customer location.
If ineligible, the Customer will be notified and may re-apply once eligibility requirements have been addressed.

2.3 ecocycle Bin Rates

A fee of \$400 (plus GST) per bin is charged upfront to the Customer's Ball & Doggett account.
This fee includes bin delivery and return (in conjunction with Ball & Doggett deliveries).

2.4 Usage & Collection

The Customer fills bins with uncontaminated and approved ecocycle media only.
When the bin is full, the Customer contacts the ecocycle Admin Team to arrange bin collection or swap (full for empty) via ITT.

2.5 Return & Holding

Full bins are returned to the nearest Ball & Doggett Distribution Centre (DC).
Bins are stored until the minimum order quantity (MOQ) of bins is reached for pick-up.

2.6 Recycling & Sorting

Bins are collected by Ball & Doggett and processed at its Victorian recycling facility.
Each bin is uniquely identified and traceable via ITTs and tax invoices.

2.7 Contamination & Damage Protocols

If bins are found to contain non-PP or contaminated material, a nominal fee will apply.
If a bin is damaged, unsafe, or unfit for reuse, a replacement fee will be charged to the Customer.

3. MATERIAL REQUIREMENTS

Only Ball & Doggett ecocycle program-approved materials are accepted. Materials must be free from:

- Metal components (e.g. eyelets, screws)
- Adhesives (subject to approval: non-PP laminates)
- Food waste or other contaminants
- PVC, polyester, or PE synthetic materials
